

Covid-19, Garbage Cuts and Lessons Learned

One of the things we've learned through the current Covid-19 pandemic and our recent advocacy against the City of Winnipeg's proposed cuts to garbage service, is that we need to establish better communication links between you, our valued members, and us, your Manitoba Chapter of CCI. To that end, we have added a feature to the bottom of the pages on our website, inviting you to join our email distribution list, which will allow us to contact you directly without having to go through your already busy Property Manager.

Clicking on the button will result in a form opening for you to enter your contact information. Doing so now, will help us help you stay informed - with important news updates, or notices for upcoming condominium education events. Please note that this feature is in compliance with [Canadian Anti-Spam Legislation \(CASL\)](#) and the [Personal Information Protection and Electronic Documents Act \(PIPEDA\)](#).

Respectfully,
Board of Directors
CCI Manitoba
